Subject: Re: Shared intern hours

I could definitely make productive use of an intern ... for as long as possible. The foundational work Travis and Garrett did continues to support our U&O FIP and ozone modeling efforts, the "Find & Fix" proposal, and oil & gas statistics used by many programs (for the first time we can say that 13% of producing oil & gas wells in R8 are on Indian Reservations, 16% of the oil, 15% of the gas and 17% of the produced water ... something that differentiates R8 from other regions in terms of workload).

So, what do I need to do to throw my hat in the ring?

Thanks,

Cindy Beeler

I have not thought much about this until now, any chance we could get a little more time, so we could talk in more detail?

Have you been thinking about this? (I haven't). Should I seek more time for proposals?

Subject: Shared intern hours

Fellow Supervisors- As I understand it, OCPI, the RA's Office and the MT Office share 20 months of intern hours annually. I am getting several requests for interns from our staff and would like to check in with you on what interns the RA's Office and MT Office might be considering. I should have firm proposals by the end of week. Would early next week be too soon to share needs, say by Tues COB? Let me know and we can assess at that point. Thanks for your consideration.
